

# EvenMix

IT IS ROCKET SCIENCE!

## PIN-LESS BLADE

Even Mix™ Pinless Mixers are the innovative solution for your mixing needs with easy installation and superior performance from the industry's only mixed flow blade.

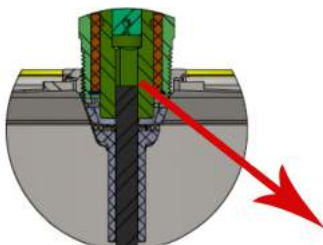

The mixed flow blade quickly mixes the entire contents of the container, saving you both time and money.

High efficiency mixing at low RPM prevents air infusion.

If drum comes under pressure:

Even Mix™ has better clearance

Pin-less mixer is completely held by the top fitting

### Even Mix™

#### No Air Entrainment

The amount of air bubbles mixed into the liquid is minimum

#### Superior Mixing

Mixes vertically and horizontally and cleans the bottom

#### Powerful Mixing

Tested up to 50,000 cps

#### Cost Effective

Competitively priced

### THEM

#### Air Entrainment

Creates a significant vortex drawing a lot of air into the liquid

#### Non-Homogeneous Mixing

Leaves residue on the bottom and in the corners

#### Not as powerful

Most are under 4,000 cps

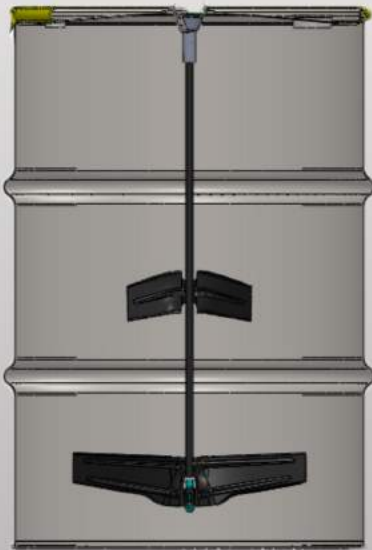

#### Not Cost Effective

Not a good value
